

BICSI TRAINING OFFERINGS IN WARRENTON, VA

Expert-Led ICT Training by Our BICSI Certified Instructor

Our BICSI Authorized Training Facility in Warrenton, VA, offers top-tier Information and Communications Technology (ICT) training led by a BICSI Certified Instructor. With a focus on hands-on learning and industry best practices, our courses prepare technicians for success in structured cabling and network installations. Each class is limited to 4 technicians to ensure personalized instruction and maximum engagement.

WHY CHOOSE OUR TRAINING FACILITY?

Expert Instruction: Learn from a BICSI Certified Instructor with extensive industry experience.

Small Class Sizes: Limited to 4 technicians per class for personalized attention.

Hands-On Focus: Practical training aligned with BICSI's rigorous standards.

Career Advancement: Gain skills and credentials to stand out in the ICT industry.

AVAILABLE COURSES

IN225: BICSI Installer 2, Copper Training

Price: $2,625

This hands-on, application-focused course sets the foundation for copper-based structured cabling system installation. It covers professionalism, copper transmission principles, general safety practices, and BICSI best practices for the installation, termination, and testing of copper cable.

IN250: BICSI Installer 2, Optical Fiber Training

Price: $2,825

This hands-on course prepares installers to pull, terminate, splice, and test fiber cabling as part of an ICT system. It includes fiber transmission principles, general safety practices, and BICSI best practices for installing, terminating, splicing, and testing fiber cable.

TE350: BICSI Technician Training

Price: $2,925

This hands-on, application-focused course helps learners transition from individual contributors to leading crews in a supervisory capacity. It includes modules on cable termination, splicing, testing, troubleshooting, bonding and grounding, firestopping practices, and project management.

COURSE INFORMATION

Max Class Size: 4 Technicians | **Duration:** Monday through Friday, 7:00 AM to 3:00 PM

Source: BICSI Website, as outlined in the 8th edition of the ITSIMM

Student Responsibility: After training completion, students will need to take the certification test through BICSI, estimated cost $200. Visit the BICSI website for details and registration.
